

SAGC SCIENCE CLUB

WE MAKE DREAMS COME TRUE

WELCOME

HISTORY

- The interaction between the eager students and the competent teachers becomes profound in the club activities to discover the passages of science by implementing knowledge and wisdom. **Our club arranged 5 national and 3 internal science festivals.** We are proud to pronounce that our club is one of the most established and successful clubs of SAGC.

MISSION AND VISION

- ▶ It has been helping the students to wonder in every sphere of science from the very beginning.
- ▶ SAGC Science Club supports the student's needs to materialize their scientific green ideas not only morally but also financially.
- ▶ SAGC Science Club has been working to satisfy inquisitive minds by providing knowledge of the unknown and the unseen.

MISSION AND VISION

- ▶ To increase the practice of scientific methods, SAGC arranges workshops and seminars also.
- ▶ We assuredly believe that this tremendous club, which has multifaceted events featuring scores of programs and activities related to science, technology, robotics, digital art and photography exhibition, will be the perfect platform to bring out the talent of junior scientists into **spotlight**.

Message of Moderator

Science Club is the platform for the students to promote their scientific interest, realize their scientific skills and fulfill their quest in doing science activities. The club aims to organize Seminars, Workshops, Exhibition and Quiz competition to inculcate students knowledge and skill in the field of science.

To intensify the thirst of the students for science, we started our journey in **2010**. We have been able to inaugurate SAGC Science Club in quest of scientific exploration by our students.

Through these science fairs, our students can build scientific skills and self-esteem, first of all. Secondly, they can support Common Core Learning. Next, they can become able to improve their grades and show their creativity simultaneously.

Besides, they can make new friends and improve their creative nature. In fine, they can make different scientific projects, wall magazines, and scrapbooks using to show their creativity.

By conducting these festivals both the intra and inter science festivals of this institution, run by the diligent students, our learners will develop a leadership mind in them. To run our science club flawlessly, we have a panel of dedicated members of forty seven students from school and college.

Panel Members:

From College = 14 Students From School
Morning Shift (BV) = 13 students
From School Morning Shift (EV) = 07 students
From School Day Shift (BV) = 13 students.

At present following the yearly calendar, With the valuable guidelines of teachers, students of the science club are taking part in numerous activities spontaneously with great enthusiasm, aspiration, devotion.

The number of present students in the science club:

From College = 200 students (About)

From School Morning Shift (BV) = 90 students (About)

From School Morning Shift (EV) = 65 students (About)

From School Day Shift (BV) = 90 students (About)

- We are cordially grateful to the founding moderator and members of the college who worked wholeheartedly for the establishment of this innovative club.

What is Digital Government?

- Digital government is the use of technology by government to facilitate internal process improvements and better citizen engagement.
- The relationship between e-participation and other dimensions of Digital Government:

The diagram consists of four overlapping circles labeled 'Digital Government', 'Inclusion', 'Transparency', and 'Participation'. Below the circles is a line graph with a bar chart overlay, and a small video feed of a woman is visible in the bottom right corner of the slide.

The screenshot shows a WhatsApp group chat with the following participants:

- ANNIHILATOR (video feed)
- Aahnaf (profile picture of a planet)
- Md Abdur (green circle with 'M')
- Tahmina (purple circle with 'T')
- SAGC (SAGE logo)
- faysal (video feed)
- You (profile picture)
- Ratul (profile picture)
- 25 others (indicated by a plus sign)

At the bottom, there are icons for voice call, video call, mute, and a menu.

THOSE DAYS WERE MAGICAL

Our Science Club channelizes the creative energies of the students and helps them to practice their skills and talents in science. It urges to help in their overall personality development as well. One can organize their visionary thoughts and translate them into action by participating in the activities initiated by the club.

Last but not the least, SAGC Science Club teaches cooperation and discipline, creating an environment of love and respect. We assure you that, we will help you to become a better version of yourself.

THANK YOU
