

SAGC MATH CLUB (SCHOOL)

Introduction: Since the establishment of the college, the students have been shown their talents and thinking as well as participating in various competitions in mathematics; but in order to meet the demands of the 21st century, the college principal Colonel Md. Mozahidul Islam, psc, G took the initiative to set up a Mathematics Club with his visionary thinking. As a result the club has been officially started on 3rd March 2020 by giving a batch among the club panel members.

Speech of Moderator:

SAGC Math Club is one of the most operative and vital clubs of our college. This club gives opportunities to the students to showcase their mathematical skills. This club gives a chance to everyone including the students weak in math to have fun with math in an entirely non judgmental and free environment.

In our school, this club helps students to let go of their fear of mathematics and engage with the lessons through notably unique and fun classes. These classes are much different than the regular classes for offering a chance to be acquainted with the most beautiful, magical and powerful creation of human spirit, that is, mathematics.

The most important aspect of mathematics is to be able to use it in day-to-day operations. And this is precisely what is taught through the club activities. To achieve this, the club conducts various competitions and provides the students with the opportunity to solve challenging puzzles, riddles etc. The club also organizes its annual mathematics fest every year. Our students have achieved tremendous success by participating in various inter school Math Olympiads.

We are working continuously to increase the engagement of students in math and help to show that math is a playful subject full of surprises and enjoyment.

Moto:

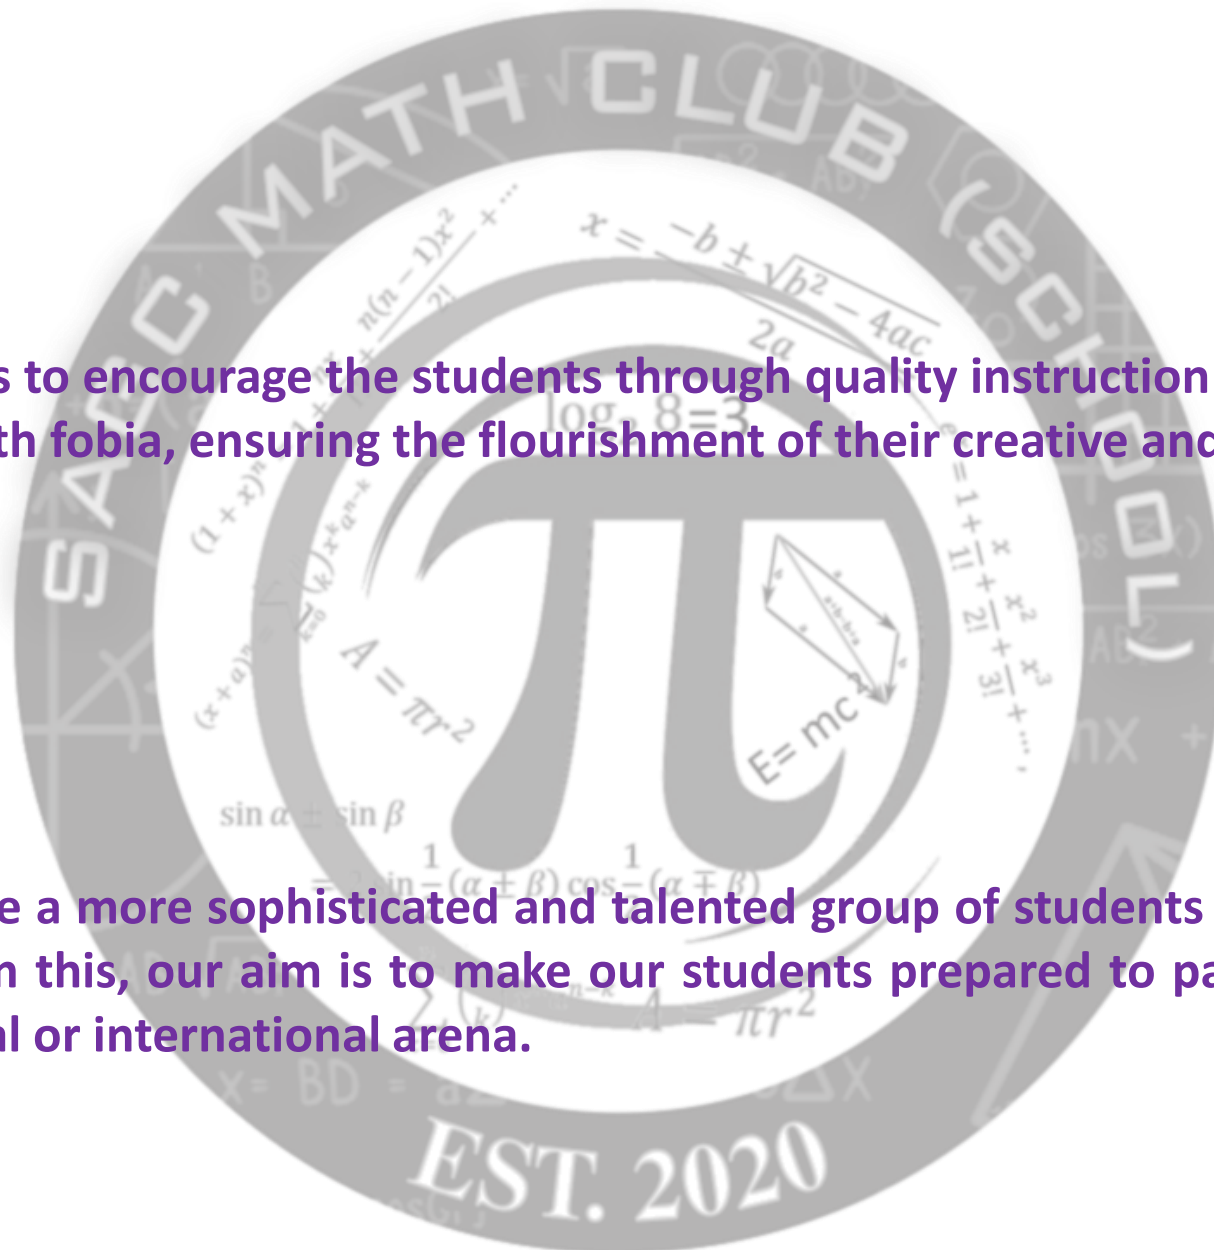

Mathematics is the door and key not only to the science but also in every aspects of life.

Vision:

The vision of the club is to encourage the students through quality instruction by our experts and it will help them to remove math fobia, ensuring the flourishing of their creative and analytical ability.

Mission:

The mission is to create a more sophisticated and talented group of students with a vast Knowledge in Mathematics. Apart from this, our aim is to make our students prepared to participate in Mathematics Olympiad held in national or international arena.

Activity:

In order to make the students curious about Mathematics, to enhance their knowledge in mathematics and to develop their analytical ability, the SAGC MATH CLUB generally arrange practice session on the 1st and 3rd week on the day of Saturday of every month. SAGC MATH CLUB panel members also arrange Inter House Math Olympiad. SAGC Math club members take part in the math olympiad organized by Inter Cantonment Public Schools and Colleges. Besides these, members of SAGC MATH CLUB also take part in the competition of math olympiad organized in national level and in the competition organized by different schools and colleges in every year.
