

Warm welcome

to

SAGC Photography Club

Logo Of SAGC Photography Club

The motto we do cherish

"We Feel, We Click"

The Mission:

The only mission/goal of this Club is to explore photography talents and set the promising youths especially the female ones on a platform to expose themselves in the realm of boundless creativity and creation.

The Responsibility:

There is no denying the importance and accountability of our club because our college organises programs of great variety from time to time.

SAGC Photography club and panel members are always in action behind the scene to keep the moves of all the events preserved and live by clicking the shutter buttons.

At present, we have 5 panel members from each Section – college, school (morning), school (day) with approx. $20 \times 3 = 60$ general members actively working under the wings of this Club.

On the first Saturday of each month we gather in the campus for club activities. We then share our views and actions regarding the plans and programs to be executed onwards.

The Journey of SAGC Photography Club:

The **journey** of this club set out in **2015** with the initiative of **Arnisha Mandal Das**, the Founder President of SAGC Photography Club.

**Lubaba Muntaha Zarin (Media and
Publication Secretary)**

Panel Members of SAGC PC

Our Vision/ Expectation

- 1. We wish to hold a well organized exhibition where all the students of our institution, who are interested in photography will be able to take part in and improve their talents sharing their creativity.**
- 2. We wish to hold several workshops for the members of our club and for the others as well who are interested in photography to develop their skills in photography.**
- 3. Photography quiz competition has a great impact as it helps us learn and study about photography, so we want to organize photography quiz competitions occasionally.**
- 4. Monthly photo contest with a pre-decided topic can help us enrich our skills with a specific perspective and will help us think of different ideas. So we want to organise a photo contest each month.**
- 5. A National Photography Fest can be organised once a year where students from different institutions can participate and explore and share their talents and ideas about photography with variations.**

Speech of the Moderators

Being the Moderators of SAGC Photography Club, we really feel very proud and want to show our heart-felt gratitude to the honourable Principal Sir and Vice Principal Madams for giving us an amazing opportunity and generous support to set up this club where the promising youths can learn and explore their photography talents. It wouldn't be incoherent at all to hope that some of these amateurs may turn into professionals in future. We duly thank all the respected teachers and the students of our institution for co-operating us to capture the best moments and keep those still and moving shots as a lifetime memory.

SAGC Photography Club has got a tremendous experience of capturing memories of multidimensional programs inside the Campus since its inception in 2015. The facebook page of this club has got more than 10 thousand likes so far. Also glad to mention that the most efficient members of this club often participate in the Photography related programs and exhibitions held at different renowned institutions of the city and it's a matter of great delight that our club members always get a huge selection as eligible competitors and winning lots of awards/trophies, they contribute a lot to raising the reputation of this institution to a level enviable in all respects. We are very much thankful to each and every person concerned for making our efforts a real great success.
